

What is it?

A Tax Day Tea Party March for American Values!

It's a follow-up to the successful March 15th rally, when 5,000 citizens shared their concerns, peacefully protesting the recent governmental spending spree. During the march on April 15th, we will deliver the signed petitions containing over 1,700 of signatures asking that our local officials represent us by rejecting bailout, stimulus, and earmark funds.

What is at Risk?

Your Freedom replaced by GOVERNMENT control.

Our current government is enacting sweeping programs intended to socialize America and entrench themselves in power for years. Direct government control of the economy, forced volunteerism, and nationalized mandatory preschool are all designed to strengthen government at the expense of the PEOPLE.

Why Attend the March?

Cincinnati is one of over 300 cities holding a tea party on April 15th and we need to show that we support a government that is by the PEOPLE for the PEOPLE.
